Bishop Ryan To Give Commencement Talk

FINAL EXAMS BEGIN MAY 25, TWO HOUR TESTS ARE SCHEDULED

Final exams will begin Tuesday, May 25 and end Wednesday June 2, according to the schedule announced this week by the dean's office.

Chief feature of the schedule will be two hour exams instead of the usual three hour ordeals. The schedule is set up so that those in course will not have more than two exams a day, although those pursuing an out of course schedule may find themselves with four tests a day.

Home Rooms

In general, the exams will be given in home rooms. The pattern calls for Monday, Wednesday and Friday 8:30 classes to have ex-

Knights and Knaves Elect Vince Lawless

The Knights and Knaves of St. Michael's College elected Vin Lawless of Great Neck, N.Y., as president of the club for next year.

Lawless, a member of the Junior class, has been active throughout the season as publicity director for the dramatic club.

Other officers elected for 1948-49 are: vice president, Bill Heenehan, Springfield, Mass.; Bob Lilly, North Adams, Mass.; Jack Scully, Hastings-on-Hudson, N.Y.; and Bob Sauer, of Springfield, Mass.

The officers have already started planning for a bigger and better season in the Fall.

In the Fall there will be a three act play, followed by the ever popular class play competition.

The Knights and Knaves also plan to have the Boston Tributary Group back on the Hilltop next April.

Most Rev. Edward F. Ryan, D. D.

College Plans Freshman 'Week' To Welcome Newcomers This Fall

By Don Gibbons

Those of you who may have the good fortune to talk to a potential Michaelman during the course of your summer vacation, may do well to pass along these few notes, which will certainly be of interest to them.

According to the schedule printed in our new catalog, those enrolling at St. Michael's for the first time this Fall, will be asked to come up one week early for purpose of "orientation."

Those of us who have been through the mill know that this preliminary procedure, although completely necessary, has in the past been rather dull and uneventful. Due to the foresight of the Administration and the Student Activities Committee, this will not be the case in September.

Freshman Week

The new arrivals to St. Mike's will be expected on the campus Sept. 13, and their "Freshman Week" will continue through Sept. 19. In order that the customary routine of these six days may be broken up, and sufficiently brightened, a necessary number of the Student Activities Committee has been asked to come back and add the proper social touch to the program.

Since expediency has always been the watch-word of the committee, Fr. Moriarty and his able-bodied assistants have already completed plans to make orientation week one of interest.

Plan Trips

Wednesday, September 15th will see an outing to either Mount Mansfield or Lake Champlain, complete with "weenie" roast and all the trimmings. Friday the 17th the Plebes will have their first opportunity to acquaint themselves with the feminine situation hereabouts, at a "mixer" to be held in Austin Hall. Let this serve as a word of warning to all you Upper-Classmen---be sure you are still in good standing with the gal when you leave in June. If not, you had better return with the Freshmen.

In addition, "Freshman Week" will contain the usual orientation assemblies, with which we are all quite familiar, but the Student Activities committee deserves a great deal of credit for the wonderful effort they are making to see that the men of '52 feel right at home during their first week at St. Michael's.

Jerry Regan Heads Debaters Next Fall

One of St. Michael's College crack debaters will head the Newman Debating Society at the college next year. He is Jeremiah Francis Regan of 254 Westwood Ave., Long Branch, N.J., who took part in the recent Spring trip when the team won six of seven debates.

Others elected at the annual meeting this week are: Donald B. Powers of 23 Maryland St., Springfield, Mass., vice-president.

Raymond R. DeForge of 47 Farmington St., South Hadley Falls, Mass.; secretary.

Bernard T. Duffy of 79 Lake St., Rouses Point, N.Y., treasurer.

Regan, a graduate of Red Bank Catholic High and an ETO veterans succeeds J. Raymond Salmon of Clinton, Mass.

Moderator of the debating club is Prof. Edward F. Murphy, a native of Pittsfield, Mass.

Fr. Lyons Plans Trip to Springfield

The Very Rev. Daniel P. Lyons, S.S.E., president of St. Michael's College, will be the principal speaker tomorrow, when St. Michael's Western Massachusetts and Northern Connecticut alumni have their communion breakfast in Springfield, Mass.

Mass in the Sacred Heart church in Springfield at 9 will be followed by a communion breakfast at 10:30 at the Hotel Highland in Springfield.

Alumni from Springfield, Hartford, New Britain, Holyoke, Northampton and Worcester are expected, according to Dr. Michael G. O'Connor, '29, of Springfield, general chairman.

Rev. Francis E. Moriarty, S.S.E., alumni secretary, and a native of Holyoke, will accompany Father Lyons. Both will speak at the communion breakfast.

Father Lyons is expected to tell the alumni about the Building Fund campaign and other developments at the college. Nearly 300 Massachusetts students are enrolled at St. Michael's this year, and nearly 100 from Connecticut.

By Joe Hart

The Most Rev. Edward F. Ryan, D.D., Bishop of the Burlington Diocese, will deliver the commencement address to the graduating class June 4. Bishop Ryan is Burlington's fifth Bishop, having succeeded Bishop Brady when the latter went to New Hampshire.

Bishop Ryan is a versatile man, interested in all diocesan activities. He has always been noted for his work and devotion to the foreign missions. He originated the building of the new wing at the Bishop DeGoesbriand Hospital and has formed five new parishes within the Diocese since his installation in 1945. He is currently backing the Building Fund Program.

Massachusetts Man

Prior to his coming to Burlington, Bishop Ryan distinguished himself among the Catholic clergy of the Boston Archdiocese. He served in many parishes there and his last assignment before coming to Vermont was as pastor of the Holy Name Church in West Roxbury.

The Bishop was born in Lynn, Mass., and attended Lynn Classical High. He was an army chaplain during the first World War and served with the 89th Division during the fighting of the Meuse and Argonne.

Bishop Ryan graduated from Boston College, class of 1901, and because of his ability was singled out and sent to Rome for his seminary course at the North American College.

While at Boston College, he played guard on the varsity football squad, captained the Eagles' nine and played on first. He was a gold medalist in his Theological studies at Rome where he was ordained in 1905.

Michaelman Copy Due Every Monday Night

All copy for the Michaelman must be in on Monday night of each week. Assignments must be brought to Austin Hall personally every Monday night at 7 P.M.

Monday, May 17th, in the offices in Austin Hall there will be a very important meeting to lay plans for next year. If members are not at this meeting it will be understood that they do not plan on being a member of the staff next Fall.

Seniors on the staff are invited to attend this meeting and to bring their assignments with them.

OFF CAMPUS DRIVE IS INTENSIFIED, SCIENCE HALL DRIVE NEARS END

While yesterday was officially the scheduled end of the Science Hall drive, it will be some time before the final reports are in to let St. Michael's and its friends know whether the \$400,000 goal

has been topped. By mid-week, nearly 40 per cent of the total had been reported; two divisions had topped their quota and three Vermont parishes had done likewise. However, it appeared unlikely that the goal would be reached.

MAY 8—SUCCESS AND FAILURE

In one sense, May 8 was a huge success on campus, despite the poor weather that descended on the celebrators of Founder's Day. But in another, it was not.

Socially, little more could have been asked of the committee, considering the fact that three-fourths of the day's program was washed out. Dan Alfieri, Mario Marini and their many associates in the Junior Class gave the Seniors a royal sendoff at the prom that will definitely go down as one of the social highlights of modern-day St. Michael's.

The weatherman frowned completely on Jim Shea's hard work on the field events program and most of the guests had already started home when the postponed Parade of the Horribles was held Sunday afternoon, but all the visitors were extremely pleased at the well-rounded program that Bill Wellington, Bobby Vail and their crews had lined up and felt just as bad as these lads when their work went for naught.

So, admitting that in intent and accomplishment, the day was a social success, let's take a look at the other side of the ledger. Solemn High Mass—which opened the weekend's celebration—attracted about 90 students, and Solemn Benediction, which marked the weekend's close, a few less. To say that it dismayed many of the faculty who remembered the May 8 of past years as something more than a social celebration is to put it mildly.

AN IMPORTANT DAY

We are a Catholic College and on any great feast day, we open the celebration by asking God's blessing at a high mass and close the observance with benediction thanking Him for His graces bestowed.

May 8 is, and has always been, a great feast day at the school—one in which the spiritual aspect is just as prominent, if not more prominent, than the social.

Before the war, attendance at mass and other devotions was compulsory. The custom was dropped last year in the belief that the students would take advantage of their many opportunities to attend mass and other services without compulsion. For a while, the move was vindicated, but in the past few months of this school year, some of the wiser heads perhaps are wondering if something shouldn't be done to revive the old system.

For the Founder's Day showing is no isolated example. Your editor feels that scheduling a 7:30 High Mass on a feast day—which means a day off from classes—is a bit unfortunate because it deprives the students of a chance to get in a late sleep. But, answering his own objection, he points out that with the schedule planned for the day, there was probably no other possible time.

The truth of the matter is that attendance at daily mass and at evening prayer has fallen off badly. At one point during the school year, several campus clubs made half-hearted attempts to organize their members into groups to attend mass on designated days each week, but this was short-lived.

PERSONAL RESPONSIBILITY

This editorial is not designed to stir up any revival this year and to create a last-minute rush to the chapel, but merely to stir up a little thought for the future. Every student on campus, especially, would do well to think over his own personal situation and see why he, personally, has not taken advantage of the religious aids that are at his disposal.

As Catholic College students, we all have a special mission when we leave here to give Christian example to those on whom our influence is exerted. If we do not pick up the little habits of daily prayer, mass and communion here—where they are available to us with little effort—we will never acquire them after we leave St. Michael's.

Hill-Wind

By John Medrek

Recently the new catalogues were distributed to the student body. It was noted that many changes have been made in the curriculums of both arts and science courses.

What do you think of the changes made in your schedule?

TOM JANELLE (PRE-MED)
CHICOPEE, MASS.

What I want to know is, who has the grudge against the science majors?

TIM MURPHY (BUS.)
WEVERTOWN, N. Y.

I think it is an improvement, because it increases the number of courses taught in my major. I do not, however, believe that that it should be necessary to maintain an 85 per cent average to take extra courses.

LOU LANOUÉ (CHEM.)
NORTH ADAMS, MASS.

With the aid of the new dealers of the academic committee on curriculum, our chemistry course has been changed to our advantage (so they tell us). With the new course we have only six labs a week in our senior year, along with a few other incidentals. This will give us plenty of time to take part in extra-curricular activities. The only trouble is that I will have to sleep in the new science building to keep up with my labs.

ALLEN JOYCE (MATH.)
ALBANY, N. Y.

The courses stress philosophy too much, otherwise I am content with the changes.

BILL O'LEARY (BUS.)
MILTON, MASS.

The Business course has been greatly improved upon. It now offers more of the courses connected with business and accounting.

EDMOND CROSS (MATH.)
ST. ALBANS, VT.

With the revised course I now have a little more math. This, of course, will give me more training in the mathematical science. With this training, I hope to figure out a scientific formula for beating the roulette wheel in Reno.

RAY DOHERTY (ENG.)
NEWTON, MASS.

I think that the introduction of journalism is a good idea.

"SENATOR" KEHOE (SOCIOLOGY)
NEW YORK CITY, N. Y.

The removal of math. (Alg.) has been a great relief to some of us who found it confusing and uninteresting. However, several of my friends who are science majors think this move will spoil the A.B. people and their education will be seriously handicapped without algebra and trig. However, I am quite satisfied with the change. The addition of two more courses in philosophy, will force some of us to double up or come to summer school.

CLIFF EDGERTON (CHEM.)
WESTFIELD, MASS.

Even Einstein would have trouble in the senior year following this chemistry course.

JOHN SUZIO (BUS.)
MERIDEN, CONN.

The changes have made an improvement in the business course but the addition of another course in business law would be appreciated.

Campus Static

The Junior Prom got top rating from all hands The gals thought the Prom souvenirs were 'just too sweet for words.' This custom should definitely be continued every year The dance floor was crowded but cozy Some couples were dancing in the teepees U.N.H. Wildcats were in rare form Several pre-Prom parties were in progress at the Sugar House Saturday afternoon Melanson's Room '24' scene of a banquet held by students of the New York area for their dates Burlington High and the Musical Festival Queens were the center of attraction for those who missed the Prom Jack Walsh called from the dance floor at B.H.S. to answer Fr. D'Agostino's phone call Saturday night 'Sarge' Salmon threatening to trade that 'Chuck' Welch for two members of St. James' 1st floor softball team. Reliable sources have it that Jack Cronin still visits Burlington High What gives Jack? Knights and Knaves off on a picnic tomorrow Year Book (a fine job) out four days ahead of schedule Paul Gravel and Gates Garity wishing their pictures weren't in Golf team beat Norwich 5 to 4 Lem Lloyd masquerading as the Purple Knight in the Parade of the Horribles ... St. Williams and St. Leo's offering basketball scholarships for next years intra-mural season Outing Club turned over their treasury to the Science Building Drive.

This is the way "Hyacinth Halvey" might have looked last Friday night in Austin Hall. Actually, the picture was snapped at the Boston College Drama Festival. As the Friday cash customers know, Dot Moriarty was ill and Harry "There's Nothing I Can't Do," Scully turned old lady, with the aid of a script, to the great satisfaction of all. Left to right: John Hess, Dot Moriarty, George Dolan, Paul LaPointe, Henry Thompson, and Peggy Guare.

SHAMROCKS AND SHILLELEAGHS

Shamrocks to those of the Junior Class who helped make the Prom a complete success .. To those who didn't, shilleleaghs. Shamrocks to the weekend chairman to the weather man shilleleaghs.

More Shamrocks to the artist Jacques Brun and Art Fraser, for their excellent murals which decorated Austin Hall ... It would be nice if the souvenir hunters would repay them in some way for their efforts A final bunch of Shamrocks to the entire Year Book staff A big heavy Shilleleagh to the guy who "borrowed" the spikes from Jerry Healy from the baseball locker room.

SPRING FEVER

By Art Fraser

Knights Pound Champlain 14-10; Drop Third to Middlebury's Vetare, 6-4

Pattison's Bat and O'Donnell's Arm Give Purple 14-10 Win Over Champlain

by Ray Howland

Paced by the big bat of Joe Pattison and the untiring relief work of Jim O'Donnell, the St. Michael's baseball team gained its initial victory of the season last week, outscoring Champlain College in a rather loose contest by the score of 14-10.

Pattison, with a homer, triple and a single, plus a perfect sacrifice bunt, drove in six of St. Mike's 14 runs, while O'Donnell, who chucked ten frames at Amherst the preceding day, took the mound in Greg Keating's relief with two gone in the fourth and carried on the rest of the way allowing only five hits and three runs, one of them unearned.

Extra Bases

The game was a wild and woolly affair with a total of eight errors being committed. Extra base hits were a dime a dozen with the "Knights" collecting six and Champlain four, although the "Knights" were out-hit fourteen to ten.

Pattison's six RBI's were only one short of the high total for the state conference over the whole 1947 season. Two other four base blows were hit, one by big "Herk" Jadatz and the other by Ferrante of the visitors.

The Purple Knights dropped their second straight Conference game to Middlebury Tuesday, 6-4.

The game was hard fought all the way, despite the costly errors committed on both sides. This puts the downstaters in undisputed possession of first place in the state standings with three wins and no defeats.

The Purple's nemesis, Freddie Vetare, was on the hill again for the visitors and for the third time in two years, he set the Michaelmen down. He was not so effective as last week on his home field when the Knights were whitewashed, but he was tight in the clutches and that's what pays off.

Big First

The Panthers did most of their damage in the first inning when they put together a walk, fielder's choice and three hits, including a triple, and a homer by Valentine, to score four.

The Knights got back one each in the first, second and third. From there until the Panthers' half of the seventh, it was a close game with both pitchers hurling effectively. But Middlebury applied the "coup de grace" in this frame, putting together two bingles and a walk for two more runs.

Heartbreak Half

In the bottom half of the ninth, St. Michael's loaded the bases with one down, but could score only one run, that on one of Eddie Casey's three hits. Last week, we gave credit to Vetare for his clutch pitching. This week, he again rates for fanning O'Donnell and Denault and forcing Pattison to ground out with the winning runs on base.

A big pat on the back for Jim O'Donnell who pitched his heart out again, but to no avail. At least two of the six Panther hits should have been caught and at times the infield looked like an act Al Schacht puts on. With any kind of backing, Jim could have set most of the teams on their ear. He's averaged five hit ball in four games.

Pattison, Tierney Leading Stickers

By Whit Bartlett

Joe Pattison and Bill Tierney led the "Purple Knights" at bat following the first five games of the baseball season, according to figures released last week by "Doc" Jacobs.

Pattison had collected four hits in ten times at bat for a lofty .400 mark while Tierney had seven for eighteen for a .372 average.

Pattison's average zoomed as a result of his performance against Champlain when he collected a home run, triple, and single and batted in six runs.

Tierney, last year's leading sticker, collected a hit in every game but one.

The averages as of May 10th.

Player	Games	A.B.	Hits	Pct.
Pattison	3	10	4	.400
Tierney	5	18	7	.372
Donovan	5	20	5	.250
Jadatz	3	9	2	.222
Ziter	5	22	4	.182

Purple Golfers Defeat Norwich

Norwich University's golf team lost its third straight match of the season at the Northfield Country Club, as the St. Michael's College golfers took their opening playoff of the season, 5 to 4.

Outstanding victories by John Corbett and Gene Nebiolo, both of whom shot the course in 70, set the pace for the Mikemen and picked up three points.

Corbett scored a 7 and 6 win over Norwich's Sweeney, while Nebiolo defeated Ashe, 8 and 7. St. Michael's won the best ball point by a 10 and 8 margin, taking every hole played.

Stirling Melendy however, had the best round of the day, a 68, gathered in firing two 34s, as he squeezed out a one-up victory over Ken Lovejoy of the Knights. Lovejoy shot a 74. John Kelleher of SM took the Horesmen's Ed Koravos, 1 up, and the best ball ended all even for a split on the three points in this foursome.

Sports Schedule Is Crowded With Baseball, Golf, Tennis

If the weather man cooperates this should be the busiest week of the spring for sports here on the hilltop. As the schedule stands now there are five baseball games, a tennis match and a golf tourney in the books for the three college teams.

In four of the five games it will be the varsity who are pitting their skill against the opposition. This afternoon they are entertaining Norwich here. Monday the K-dets return the honor by inviting the Knights down to Northfield.

Back home again Tuesday, the Knights will play host to St. Lawrence and attempt to avenge the 5-4 setback they suffered on their expedition across the lake. Finally on Thursday the

by Bob Flanagan

The baseball situation here on the hilltop this week reached kind of a liquid state. The varsity's four road games came off O.K. and they managed to get in one home tilt against Champlain. But last Friday's frosh game with U.V.M. was washed out. The yearling's May 8 encounter with Vermont Jr. went the same way and Monday the varsity's Vermont game followed the other two down the drainpipe.

It was too bad the Knights had to open with their three toughest foes. Clarkson and St. Lawrence were both powerhouses last season while Middlebury was the state champ.

Even so, with a little hitting the Knights would have taken at least one of the three. Jim O'Donnell deserved to beat St. Lawrence just as he earned a victory in that tie down at Amherst.

Jim has been pitching consistently fine ball all spring but the team just hasn't hit behind him. In addition, the Knights' fielding in the first few games was less than air-tight.

New Field

The new athletic field is beginning to take shape. The gridiron is covered with its first coat of grass; the infield has been staked off and a space has been cleared for the hockey rink, incidentally, this would be a good time to think about building some kind of a temporary shelter out there. If St. Mike's decides to ice a hockey team the skaters will need some kind of a place to go between periods. Another reason the drive must go over the top.

One of the highlights of last week's intramural's was the 'Stankiewicz shift' employed by the fourth floor in an attempt to muffle the heavy bat of the faculty's slugger. The flatmen moved their whole infield over to the right of second base but Fr. Stankiewicz blasted a single through the packed defense.

'PANE KILLER'

They're calling Pat O'Doherty the 'pane-killer' on Old Hall's third floor. After a frosh baseball practise the other night Pat decided he'd toss the ball up to the third floor instead of carrying it. Whoever said Pat's fast ball couldn't break a pane of glass? He broke two.

Golf Hazards

During the vacation we read an article in one of the Boston papers. Golfing officials, the writer said, were worried by the shortage of young players. A few years ago baseball was in the same predicament. The kids were throwing away their bats and balls in favor of drivers and niblicks.

But baseball officials took action by cooperating with the high schools and with the American Legion in their amateur programs. Now golf, the writer concluded, is faced with the same problem of interesting the kids in the game before it is too late and the courses have to close because of lack of patronage.

Local Problem

What the writer didn't say is that the golfing officials have it in their power to correct the situation any time they feel like it. All that's necessary is for the clubs to provide special rates for these youngsters. As it stands now, the situation is especially tough in towns such as Burlington where there is only one course. We doubt if golf will develop many young players by charging them twenty-five a round.

Subscription Plan Offered For Summer Theatre Fans

The St. Michael's Playhouse will reopen for its second season July 1 and the college is offering to theater lovers membership in the Summer Play Association for a flat fee (\$5.00) which will admit members to plays in Austin Hall during the five week season.

It will also admit them to lectures at the St. Michael's College Drama School by Rev. Emile Legault, C.S.C., celebrated director of Canada's "Les Compagnons" and technical advisor to Hollywood for the filming of "Antigone."

Executive Director Henry Fairbanks said that casts will be drawn from last year's resident Ethan Allen Players, the Blackfriars Guild in New York and talented apprentices from the College Drama School.

Duvey Back

Eliot Duvey of the Boston Tributary Theater will co-direct. The company will again be an Equity A Company, presenting the finest in talent and plays. Fred Graves and Lynn Masters of last year's company have already been signed.

The tentative schedule of plays offers "The Silver Cord," "The Far Off Hills," "Our Town," "The Glass Menagerie" by Tennessee Williams and probably the premiere of a play by a well known stage writer.

Teachers Aid

A special attempt is being made to integrate the plays with the summer school curriculum at St. Michael's. In this way, Fairbanks believes, the benefits from working with famous directors will be widespread through the teachers and actors who come to St. Michael's for graduate work.

Faculty Over Top In Drive Pledges

The faculty of St. Michael's College is the first division to go over the top in the \$400,000 Science Hall drive. With a quota of \$2000, twenty five lay professors have already pledged \$2500, an average of \$100 each and several other professors are yet to be heard from.

Dr. Jeremiah K. Durick, chairman of the faculty committee, today reported the preliminary

total to the general chairman, James J. Carney.

"I am certainly gratified with the showing of the faculty," Carney said. "If any-one knows the need of the new Science Building for the St. Michael's students, this group does. And it is knowledge matched with action that makes the \$100 average a real inspiration to the rest of us."

Better Preregister

Friday, May 21, is the deadline for preregistration for the fall semester. Preregistration began last Wednesday and those who don't check in before Friday may find themselves short of classroom space. Hours at which advisers are available are posted on the bulletin boards. Those late in preregistering are subject to a \$5 fee.

Segovia Gives UVM Lowdown on Costa Rica

The ebullient and unofficial ambassador from Costa Rica, Rafael Segovia, ventured into foreign territory last Monday and brought back laurels to the Hilltop.

Rafael, a valued member of The Michaelman's staff, spoke before the women faculty members of the University of Vermont on "Costa Rica as a Pacific Power."

The club has been studying Latin American countries and invited Rafael to be one of the speakers in its series. The talk, which covered the historical and economic background of the Central American country, was especially timely because of the recently ended civil war in that land.

Segovia told how the Communist supported administration attempted to invalidate the election which resulted in the election of elements friendly to the United States. Several members of Segovia's family were active supporters to the ultimately victorious candidate, Ulate. Yerry Crowley was given an assist for checking Rafael's rhetoric. Rafael insists the jokes were his own.

Debaters Stop Talking Long Enough To Dine

The Newman Debating Society held its first banquet Wednesday, May 12, in the "Nautical Room" at Marietta's Restaurant in Burlington.

The members enjoyed a delicious full course steak dinner which was followed by a few speakers. Retiring President J. Raymond Salmon served as toastmaster and called upon Professor Edward J. Murphy, moderator of the society. Professor Murphy praised the organization for its splendid work this year, and outlined plans for the coming year.

Richard P. Bourdon, treasurer and Bernard Duffy, secretary of the society also spoke.

Certificates were awarded to the outstanding members of the society who were eligible to receive a Debating Key. Since there was no other business in order, Salmon then handed over the gavel to incoming President Frank Regan. Mr. Regan thanked the society for the honor bestowed upon him and promised to uphold the dignity of his office.

SCIENCE HALL DRIVE NEARS END

Continued from page 1

likely that the goal would be met as early as had been hoped for.

Lack of many large donations, such as boosted the De Goesbriand Hospital drive over the top last year, has made the college drive a more difficult campaign. The largest single gift to date has been \$5000.

Dr. Durick's faculty committee was the first to go over the top with an average of \$100 per lay professor. The Special Gifts committee in Burlington, aiming for \$60,000 topped that figure early in the week and promised more. P.T. Donovan and J. Edward Moran are co-chairman of that group.

The first three parishes to go over the top were in Middlebury, Milton and Shelburne. In the case of St. Catherine's parish, Shelburne, where Father Lyons had assisted in weekend ministry for 10 years, the parish topped its \$1500 goal by 130 per cent, and added some personal gifts for the president.

John McEnrue Dies After Brief Illness

John H. McEnrue, 21 year old freshman from Burlington, died suddenly in his home Tuesday of a blood clot in the throat. He had attended classes the day before and had recently been a candidate for the freshman baseball team.

Although he had entered St. Michael's only in February, he had made many friends and a large number of students attended the requiem high mass sung in the college chapel Thursday morning at 7 by Very Rev. Father Lyons, college president. A number of students and faculty attended the funeral high mass at the Cathedral in Burlington Thursday morning.

Young McEnrue who complained of a sore throat died within an hour after the doctor had been called. He lived at 204 Pearl Street, Burlington and was the son of Mr. and Mrs. Harry J. McEnrue. At Cathedral High School, he was a member of the band and choir and had attended New Hampton Prep in New Hampton, N. H. before coming to St. Michael's.

May he rest in peace.

Off-campus students

The campus campaign brought good results with more than \$5000 realized. However, few of the off-campus students had given and so by midweek, Chairman Harry Scully and a group of volunteers began buttonholing and doorbell ringing where the Michaelmen are housed in town.

Club donations

Another boost for the on campus drive was offered this week when the Outing club voted to turn over its entire treasury of over \$50 to the campaign. As soon as word of the action spread around campus, several other clubs seemed likely to follow suit, judging from comment of their officers. Scully sent notes to each club president, calling to their attention the action already taken and suggesting that similar moves might be in order.

Orchids for Elias

One of the touching gifts of the campaign was from an unsolicited source. Elias Desautels, night watchman in Austin Hall who has been bedded with a heart condition several months this past year, walked into John Buchan's office the other day and laid down \$50 for the drive.

When the Building Superintendent reminded him of his illness and the uses to which he could put the money, the elderly fellow replied: "I know what I'm doing with my money, and it's going for a good cause". That got no further argument.
